

A Therapeutic Group for:
*W*omen Who Struggle With
Pornography

Several groups in the area exist to help men with sexual addictions and pornography. Support groups exist for women whose husbands are addicted to pornography. Yet few groups exist for women with pornography addictions. Recent studies show that:

17% of all women struggle with a pornography addiction
1 of 3 visitors to all adult websites are **women**
9.4 million women access adult websites **every month**

These statistics are alarming. It is a problem that Crystal Renaud, the director of the “women’s sexual integrity recovery group” in Kansas, calls “widespread and silent”. These women often suffer in silence. Where is the healing and hope for them?

Well Spring Counseling LLC. will be conducting an affordable therapeutic group for women who struggle with pornography addiction in 12 sessions. If you feel like you are ready to break the cycle of addiction and move toward healing, or know someone who needs help, please contact:
